GroundsKeeper

Manufactured By Brentwood Industries, Inc.®

The ideal wheelbarrow for the landscaper, gardening professional, homeowner, and golf course maintenance

Cold rolled steel chassis resists corrosion and holds up to wear and tear. **60" N. American Hardwood** handles resist bending or breaking. UV stabilized polyethylene pan reduces scratching, denting, fading, and never rusts. 6" wide oversized turf tread pneumatic tire is easier to handle in stones, mulch, and soft ground.

Model No.	Wide Chassis Brentwood Part Number	Description	Ship Wt each (lbs)
6" Turf 2 Ply Tire
